

Amendments to the Specification:

Please replace paragraph at page 3, line 7 of the specification with the following amended paragraph:

--Molded body 14 is then placed around the leadframe and the dies coupled thereto. Preferably, drain region 20 of the ~~first~~ second die is exposed through the body. Additionally, back side of the ~~second~~ first die may be exposed through the top of the body where an optional heat sink may be attached for further improved heat dissipation.--
